## PICNIC CALLED OFF ON ACCOUNT OF RAIN MONDAY

The Elks Free Picnic, which was to have been held on Monday afternoon, was called off on account of the rain and as the season is getting late it is possible that this event will not be held this year. However, there was the dance Monday evening and with the kind assistance of local musicians, good music was furnished for the occasion and the crowd present enjoyed themselves immensely.

## LITTLE ITEMS OF LOCAL INTEREST

Mr. and Mrs. A. F. McKibbin left Saturday evening for a holiday at Banff and other points.

Mr. H. Birch and son, Allen, came over from Cluny last Friday. They took in the tennis tournament at Drumheller over the week end.

Mr. and Mrs. H. Jealous and family and Mr. and Mrs. J. Johnson spent the week end holiday at Banff.

Mrs. Sutor is visiting with her sister, Mrs. T.J. Ramsay.

Mr. and Mrs. Geo. Malton and family returned last Friday from a six weeks motor tour of Eastern Canada.

School opened on Tuesday and the pupils are beginning to get down to work after the holidays.

Mrs. Geo. Grainger will give music lessons in Carbon every Friday afternoon and Saturday. Anyone desiring lessons can interview her at Mrs. Hay's residence Saturday, September 7th. Lessons to children under ten yrs. 50c. All others, 75c.

Mr. and Mrs. H. N. Elliott were week end visitors to Calgary, Turner Valley and other southern Alberta points.

Mr. and Mrs. R. Coburn of Wetaskiwin, were holiday visitors at the home of Mr. and Mrs. C. Moorhouse. They returned home on Tuesday, accompanied by Mrs. Moorhouse.

Miss Tobin returned the first of the week and has resumed her duties as teacher of the Lennox school.

Miss Bertha Gimbel was a Carbon visitor on Monday.

Miss Millicent James left on Monday for Edmonton, where she will attend Normal school this year.

Mr. and Mrs. Jim Ramsay were visitors to Banff last week. They returned on Monday.

Dr. A. J. Wright of Edmonton was a week end visitor with his parents, Mr. and Mrs. S.N. Wright. He returned to the city on Monday.

Miss Elsie Roulean returned to her home in Kaslo, B.C. after spending the past month visiting with relatives here.

G. Livingstone and R. Lynn spent the week end holiday at Olds.

Joe Connolly returned to Carbon last Friday after spending part of his holidays in Calgary.

Miss Margaret Kenny is the new teacher in the Carbon school, she having taken Miss Paton's room.

## PRINCE'S RANCH AS OIL FIELD

The London Sunday Express features a story that the Prince of Wales may decide to drill for oil on his E.P. ranch at High River, Alberta, and declares "experts are confident that a strike would be made at a depth of 5,500 feet, giving him a yield of probably 5,000,000 pounds. Whatever the plans might be under consideration, are being kept secret." No confirmation of this report was obtainable from the Prince's secretary, and the report was not taken seriously.

## UNIT REPORT OF PUPILS OF CARBON HIGH SCHOOL

### FORMER SCHOOL TEACHER IN CARBON BECOMES BENEDICT

ORAIGMYLE, Aug. 27.—While on his holidays, John MacLean, principal of the school, became a benedict, and with his bride arrived home on Friday evening. On Monday evening a large assembly convened at his residence and invited the happy couple to tour the town in S. S. Howard's truck, to which they readily agreed. On returning to their home they were presented with several tokens of respect and esteem, and were wished every good wish for their future happiness. Mr. MacLean thanked the gathering on behalf of his wife and self and after fruit and cigars had been distributed, and the singing of "For They are Jolly Good Fellows," the crowd travelled homeward.—Hanna Herald.

### Tennis Notes

#### MANY FROM CARBON ENTER DRUMHELLER TOURNAMENT

The following Carbon tennis players made the trip to Drumheller on September 1st to compete in the open tournament there:

Mrs. Laing, Miss E. Braisher, Mrs. Hunter, Messrs. H. Longstaff, V. Hawkins, H. Brown, G. Peters, Alf Braisher, W.A. Braisher, M. Wiertz, J. Fairbairn, J. Morgan, H. Edwards, and H. Birch are of Carbon, but now

There was a very heavy entry from all over the Province, 58 entering in the Men's singles alone, but unfortunately play was stopped by rain in the afternoon and the tournament will be postponed to Sunday, the 8th inst.

H. Edwards reached the semi-final of the Boy's singles and now has to play W. Stark of Drumheller, Harry Longstaff and V. Hawkins were playing Thorburn and partner from Veteran and each side won one set when rain stopped play. Mrs. Laing and Miss Braisher survived the first round of the Ladies Singles, but were each defeated in the second round by Mrs. Thorburn of Veteran, and Miss Ruby Roberts of Calgary respectively.

A. Birch reached the second round of the Men's singles and now has to meet Stuart of Calgary.

All report a very enjoyable time while play was possible, and were glad to have had the opportunity of renewing old acquaintances and making new ones in the tennis world.

### RAIN AND FROST HIT CARBON

The week end holiday was somewhat marred by the steady drizzle of rain on Sunday and Monday of this week and as a consequence threshing was suspended for a couple of days. The rain was fairly heavy in some parts of the district, but as far as we can ascertain, there has been little, if any damage done to the grain.

On Monday night a fairly heavy frost was experienced, but no damage has been reported to grain from this source.

### NEWS OF ALBERTA

Nick Celulski, machine boss at the Rosedale mine, Drumheller, was instantly killed last Friday when he was buried under a fall of rock.

The poll held on Monday at Capstair resulted in the passing of the by-law for the erection of a new school, the vote being 62 for, 5 against.

Drumheller now has a Credit Bureau and merchants can get together and ascertain just what persons in the district are deserving of credit and how much each person owes at the various stores.

Gleichen hopes to get an irrigation system soon and the council has authorized a survey to be made of the town.

The official opening of the new hos-

## Developing Sentiment For World Peace

Despatches appearing in the daily papers telling of the rupture of relations between Soviet Russia and China, with raids along the border between the two countries and the imminence of open warfare; despatches reporting the strained relations that have developed between the Jews and Arabs in Palestine, ending in riots and necessitating vigorous military action by the British Government as the mandatory power in Palestine; despatches outlining the difficulties confronting the reparations conference at the Hague, in reaching some amicable and satisfactory solution of the financial problems arising out of the Great War; despatches recording the communistic activities of Soviet agents in all parts of the world,—all reveal how far distant is that day when the nations of the world can rest assured of universal, permanent, world-wide peace.

In his recent masterly address before the Canadian Club, at Regina, Hon. Winston Churchill declared with emphasis and without any qualification, that the greatest need of Great Britain and the Empire today was a long period of world peace. Great Britain, he said, was making wonderful progress. It was more prosperous than ever before, more people were employed, the standard of living was higher, but population was larger, taxation enormously heavy, and a long struggle ahead to wipe out the huge burden of war debt. But, he reiterated, all that was necessary was a long period of peace to enable the Old Land and the whole Empire to re-establish themselves, develop their great resources, and thus enter upon the greatest era in their history.

Mr. Churchill, therefore, urged the Canadian people to do everything to develop a strong sentiment for peace. Such a sentiment existed and was growing stronger every day. Statesmen everywhere were striving for it. But his message was to each and every individual to do their part, to think peace, talk peace, act peacefully. Only so would the nations themselves become peaceful in thought and outlook; only so could statesmen effect those compromises and develop those policies essential to world peace.

Finally, Mr. Churchill confidently predicted that, if such a state of mind was cultivated by the masses of the people, the longed for peace would be maintained. There would, no doubt, be uprisings and troublous times among the less civilized peoples, such as were in evidence in Russia and China, but people should not be misled by these into thinking that general world peace was impossible of realization.

Canada, with its cosmopolitan population, containing, as it does representatives of almost every nation under the sun, has a particular duty to perform. It is clearly the duty of the people of this Dominion, both in the interests of Canada itself, and of the world at large, to cultivate the kindest of feelings toward each other, to refrain from looking down upon their fellow-citizens of other racial extraction as inferior to themselves, to be considerate of their customs and habits.

It is likewise in the interests of Canada, and of world peace, to study international problems, and to resist to the utmost those tendencies to erect walls of division between this nation and that, whether those walls be military, naval, social, or in relation to matters of trade and commerce. It should be the aim of the Canadian people to be friendly with all other people, and, instead of emulating any of them in policies of isolation, exert their influence to the end that cordial goodwill be developed instead of suspicions and antagonisms.

### Six Tip Scale At Pound

#### German Fruit Farmers Have New Variety Of Strawberry

A new variety of strawberry, called "Upper Schlesian," so enormous that six luscious berries alone tip the scale at a pound, is the latest offering of the industrious fruit farmers of the Vierlaenden, near Hamburg. The new berry is perfectly formed, of appetizing rosy hue, with a delicious flavor.

The Vierlaenden, a fertile low-lying district in the vicinity of the river Elbe, is justly famous, for its people have preserved many of their fine fruits and vegetables.

If a boy doesn't earn more than he gets he will never amount to much as a man.

## When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention. It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### New Nickel-Copper Find

#### Promising Discovery On Manitoba-Ontario Boundary

It is reported that a promising nickel-copper discovery has been made in the vicinity of Ingolf on the Ontario-Manitoba border. Assays show 20 per cent. copper, 1 per cent nickel and about three dollars worth of gold per ton. Further assay work is proceeding at the present time. It is stated at Ingolf that the find is about 600 feet wide and one and a half miles long, with an outcrop about six miles east. There is a large body of the same mineral on the Manitoba side but it is closed for staking yet.

## WEAK, WATERY BLOOD

### Is the Cause Of Much Distress and General Weakness

Anemia — which really means weak, watery blood is responsible for the pale faces, thin cheeks, dull eyes and drooping figures one sees so frequently. It is the chief cause of headaches, weak backs, aching limbs and uncertain health. Every weak, anemic person should win the right to be well by refreshing thin, weary bodies with the new, rich, red blood so promptly supplied by the use of Dr. Williams' Pink Pills. This new blood reaches every organ and nerve in the body and quickly banishes all those troubles that have their origin in watery blood. Among those who have found new health and strength through the use of Dr. Williams' Pink Pills is Mrs. Elizabeth Evans, Amherst, N.S., who says: "When I began taking Dr. Williams' Pink Pills I was so weak and run-down that I could scarcely go about the house, and found housework almost impossible. I was taking doctor's medicine, but with no apparent benefit. I had often read about Dr. Williams' Pink Pills and decided to try them. Soon I found they were helping me, and under their continued use I regained good health. The pills also completely relieved my son of St. Vitus Dance, so that I have every reason to praise them."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### An Unusual Court Decision

#### Rules Dust Beneath Floor Is Property Of Hungarian Tenant

The Supreme Court of Hungary decided recently that, although the floor of an apartment belongs to the landlord, the dust collected beneath it is the property of the tenant. The decision is worth \$2,500 to Frau Simon Sichelmann, for the dust over which the case arose is gold dust which accumulated there during the fifteen years that her husband carried on the trade of goldsmith. On his death the widow decided on a floor mining enterprise which her landlord opposed, claiming the dust and floor both as his. Nine pounds of gold dust already have been recovered.

### Might Not Be

"One wife too many!" exclaimed Mrs. Hinty, as she glanced at the headlines of her husband's paper. "I suppose that is an account of the doings of some bigamist?" "Not necessarily, my dear!" replied Mr. H., without daring to look up.

Nights Of Agony come in the train of asthma. The victim cannot lie down, and sleep is driven from his brain. What grateful relief is the immediate effect of Dr. J. D. Kellogg's Asthma Remedy. It banishes the frightful conditions, clears the passages, and enables the afflicted one to again sleep as soundly and restfully as a child. Insist on the genuine at your nearby druggist.

### What's In a Name

#### Some Arouse Unpleasant Memories As Chinese Very Well Know

Even the Chinese, unemotional as they seem, find that old names now and then arouse unpleasant memories. A thousand years ago Tartar invaders named a city Mankung. The Chinese recaptured it in the twelfth century and named it Yen-Shan-Fu. Along came the Tartars again a few years later and they rechristened it Chung-tu. Then came Kublai Khan, who made it Yenking. After being called Ta-tu and Cambaluc it was named Peking 500 years ago, and clung to this designation until recently. The late revolution gave it a new twist and it is now Peking, which means "northern peace."

Minard's Liniment—The King of Pain.

W. N. U. 1801

### Inventor Of Gramophone Dead

#### Emile Berliner Also Evolved Telephone Transmitter and Established Milk Standards

Emile Berliner, inventor of the gramophone, the first disc record talking machine, and the telephone transmitter, died recently at his home in Washington, D.C. Mr. Berliner was 79 years of age.

Following his arrival from Germany in 1870, he engaged in various vocations. He sold glue, painted backgrounds on enlarged photographs and travelled as a salesman for a Milwaukee wholesale house.

In 1877 he moved to Washington and began experimenting. While a clerk in a store he evolved the idea of the loose contact transmitter or microphone, which placed the telephone on an advanced commercial basis, some three years after Bell and Watson had invented the telephone in Boston. Later the microphone was to become also the soul of radio broadcasting.

In 1887 he achieved the second scientific discovery that placed his name in the forefront of inventors by giving the world the gramophone. This talking machine utilized the disc record, also his invention, and a horizontal wave groove, rather than the cylinder up and down groove. He invented and perfected, as well, the present method of duplicating disc record.

For his gramophone invention he was awarded the John Scott medal and Elliott Cresson gold medal by Franklin Institute, Philadelphia.

Mr. Berliner exhibited his adaptability in yet another sphere by interesting himself, in 1900, in the cause of the high death rate among babies, which he traced to the dangers of raw milk. He was instrumental in establishing milk standards, which were accepted in modified form by all the large cities of the country.

In his late years Berliner was associated with his son Henry in an advisory capacity for the development of the helicopter—an aircraft capable of rising straight up from the ground.

Minard's Liniment—Used for 50 years.

### A Modern Sandoz

Saxson Brown lays claim to being Britain's strong man. He has let motor cars run over his chest and once, when a wheel slipped, it went over his throat. He suffered nothing more than a "sore throat." He can pull motor-coaches filled with people and weighing over three tons, with his teeth.

A driverless motor-car controlled by radio has recently been exhibited.

## SHIP YOUR GRAIN — TO — McBean Bros.

Crop conditions the world over appear to be unsatisfactory this year, so much so, that we consider higher prices warranted than those prevailing. It is our opinion, given after careful study of the world conditions, that our wheat should be worth today \$2.00 per bushel with considerably higher prices later on. Assuming that importing countries take 850,000,000 bushels, which is a moderate estimate, as last year they took 927,000,000 bushels, and European crops this year are short of last, we have every indication of a shortage in supplies before another crop is harvested. For this reason we look for wheat to sell at \$2.25 per bushel, barley at \$1.25, and oats at .35c. By shipping your grain to us you can obtain a substantial advance, and can then hold for a favorable market. Winnipeg, August 15, 1925.

### League Has Varied Duties

#### No Matter Too Large Or Too Small For Attraction

It is astonishing to see what a number of activities are to be credited to the League of Nations. Recently, for instance, it dealt not only with the all-important matter of disarmament. It considered how to "protect young female performers in music-halls and similar establishments." It also discussed the prevention of counterfeit coinage, and suggested measure for discouraging criminals from making and circulating false money. Nothing is too large for the League, nothing too small. Which is as it should be, and does great credit to the League staff and subsidiary committees.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from the first dose there is improvement in the condition of the sufferer and a cessation of manifestations of internal trouble.

### Shows Big Increase

According to a statement issued by the Alberta Government, dairy production in the province increased over 13 per cent. during the first six months of this year, as compared with a similar period of last year.

## Hunters

Take Minard's along for any mishaps in the woods. Good for sprains, cuts, burns and bruises.

## Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

Appleford Paper Products LIMITED HAMILTON - ONTARIO

Western Representatives: HUNTER-MARTIN & CO., REGINA, SASK.

## VICTORY IS WON BY SNOWDEN AT HAGUE MEETING

The Hague.—The deadlock which has delayed result of the international reparations conference for three weeks ended with a victory for Rt. Hon. Philip Snowden, British chancellor of the exchequer.

After an eight-hour session, in which delegates of France, Belgium, Italy, Japan and Germany met with the British delegation, Snowden and his colleagues withdrew and evolved a project which was accepted by the other creditor powers a few hours later.

According to the British Communiqué announcing the accord, Snowden got 83 1/2 per cent. of the 48,000,000 marks (about \$12,000,000) which he demanded as an increase in Britain's share of the reparations payments. This increase amounts to 40,000,000 marks.

The chancellor of the exchequer—who looked tired and frail and anything but victor after the conference—also got 80 per cent. of his demand for 120,000,000 marks share in unconditional annual payments. This share amounts to 96,000,000 marks (about \$24,000,000)—which is not an increase in payment but represents guaranteed payment on specified date.

In addition, the British won an important concession for their coal industry when Italy agreed to buy 1,000,000 tons of coal annually for three years from British mines. This concession met the third British demand—a means of relief from too long a period of German payments by deliveries in kind.

The accord marked the end of the hardest fight at any European conference since the world war. It left open, apparently, only the consent of Germany to re-arrangement of some payments and the German spokesman said that would be forthcoming.

French correspondents described the accord as "complete capitulation to Snowden."

### Moslem Revolt Serious

British Marines Open Fire In Attempt To Quell Arab Attack

Cairo.—Arabs attacked the suburb of Tulkeram and Jenin, northwest of Jerusalem, and advanced behind intermittent fire according to advices received here from Jerusalem. Ten Jews were wounded in rioting at Bel-san and nearby points. Police repulsed them. Fighting continued in the western and southern parts of Jerusalem the advices said.

British marines opened fire at Haifa, in an attempt to quell an Arab attack on the Jewish quarter of the city in which many were killed and wounded, among both Jews and Arabs, according to reports received here by the Jewish Telegraphic Agency. The marines fired on both the Jews and Arabs, it is stated.

Another report received in Cairo described Jerusalem as being in armed danger, with an army of 2,000 armed Arabs, including Druze tribesmen, marching on the city.

### Derby Filers Killed

Boston, Mass.—"Red" Devereaux and his mechanic were killed, and Devereaux' wife was probably fatally injured when the Philadelphia-Cleveland Derby plane, believed to be piloted by Devereaux crashed upon its arrival at the Boston airport. The plane was the second of the derby to reach here.

### Claims Record

Cincinnati.—Before pulling the ring to open his chute, Rex Harker, 23, daring East Liverpool, O., flyer, leaped 9,600 feet here. He claims the world's record for delayed parachute jump, having stepped from the plane at a height of 11,800 feet.

### Atoms Added To Radio Noises

Schenectady, N.Y.—To join the vast army of radio performers, now comes atoms. Small matter, to be sure, but nevertheless audible, as was proven in a recent broadcast over station WGY here.

W. N. U. 1801

### Route Not Selected

Air Mail Route To Coast Awaits Report From Technical Flying

Edmonton.—No selection of a through air mail route to the Pacific Coast has yet been made, declared G. Herring, of Ottawa, superintendent of air mail service for the Post Office Department, when seen on his arrival from Calgary.

Reports will be obtained from technical flying men dealing with service safety and the route offering the greatest rapidity of operation before anything definite will be settled in connection with the through line, said Mr. Herring.

There has been an impression that the through line was to run by way of Calgary, or that the southern route would be given the initial try-out on account of Canmore being selected as the terminus for the service that will open up by next month. Mr. Herring points out that Canmore was selected as it gave these operating the air mail service two hours leeway in making connections with the train for the coast. It was not to be taken as indicating the Department's choice of the final route to the coast, as that has not been considered as yet.

### Resources Will Be Discussed This Fall

Settlement For Alberta and Saskatchewan Is Looked For

Edmonton.—Natural resources and the conclusion of negotiations for the transfer to Alberta of its public domain will be up for discussion again some time this fall it is expected by Premier Brownlee.

Asked as to the present standing of the question, the Premier said that no official communication from the Ottawa Government in respect to a new offer has yet been received, but the provincial government has been given to understand in other ways that Ottawa's attitude in the matter will be to extend to Alberta and Saskatchewan the same plan of settlement as in the case of Manitoba.

### Urge Shorter Day For Canadian Miners

Six Hours Asked In Resolution To Labor Congress

St. John, N.B.—Six hour days for miners featured a resolution by Drumheller, Alberta, local union number 59, which was presented at the opening session of the Trades and Labor Congress, of Canada, here. The resolution stated that inasmuch as the miners were employed for only five months in the year, that an extensive search for wider markets for Alberta coal had failed miserably and that this had been used as a basis for reduction in miners' wages at Drumheller; they, therefore, urged a six-hour day and a five-day week for all miners in Canada.

### Seed Cleaning Plant

Manitoba Is Promised Plant Similar To Saskatchewan

Winnipeg.—Manitoba will shortly have a registered seed-cleaning plant, it was indicated by Hon. W. R. Motherwell, Federal Minister of Agriculture.

"As soon as the Manitoba seed growers are ready, we are prepared to give them a similar service to the one we are providing in Saskatchewan," Mr. Motherwell stated.

### Saw Decapitates Child

Quebec.—When something went wrong with the mechanical saw Antoine Blouin was operating, the wheel decapitated Yvette, his thirteen-year-old daughter, completely cut off one of Blouin's arms, and partly severed one of his eleven-year-old son's arms. The accident occurred at St. Sebastian, Beauce County.

### Regular Arctic Mail Service

Ottawa.—A regular Arctic mail service between Fort McMurray, Alberta and Aklayik, Northwest Territories via northern trading posts will be inaugurated early in November, according to an announcement by Hon. Peter J. Veniot, postmaster-general. Details of the new service have not been made public.

### TOURING CANADA

Randolph Churchill, 18-year-old son of Winston Churchill, who is with his father on a tour of Canada. The photographs were taken on his arrival in Toronto.

### Rumors Of Ontario Election In November

But Premier Ferguson and Cabinet Members Turn Aside All Queries

Toronto.—The political pot in Ontario has begun to simmer. Rumors of an election this fall are heard on every hand—but Premier Howard Ferguson and members of his Cabinet have, so far, deftly turned aside all queries with non-committal answers.

The present government was elected December 1, 1926, and in the normal course of events would have more than a year's tenure of office ahead of it. The government has not seen fit to state that an election will not be held before the expiration of the regular term—but neither will they say an election will be held.

Hon. W. E. N. Sinclair, Liberal leader, who has been touring various sections of the province, has been predicting an election this fall and has been urging preparedness on the part of local Liberal organizations.

One source has it that an election would be held some time during the first two weeks in November.

Premier Ferguson had no comment to make on this.

### Sailing Boat Burned

Vessel Took Fire Near Churchill But Crew Escaped Safely

Churchill, Man.—The schooner "Morso," owned by Dominion Explorers, Limited, Toronto, took fire 40 miles north of Churchill and in twenty minutes sank, it was learned here when the crew of 11 men arrived safely. The crew barely had time to scramble into life-boats before the "Morso" went down. Except for A. Gregory, sailor, and Fred Mason, cook, who are suffering from exposure, the crew survived the 24 hours spent in open boats without mishap.

### To Conquer Namesake Peak

Rt. Hon. L. C. M. S. Amery, former secretary for the Dominions in the Baldwin administration, forgets politics for mountain climbing, and in company with A. O. Wheeler, president of the Alpine Club of Canada, (left in picture), sets out from Lake Louise to climb Mount Amery,

### Given Entry Rights

United States Oil Men Are Admitted Into Canada After Some Delay

Ottawa.—A party of United States oil men including executives and geologists, which was held up at the international border at Sweetgrass, Montana, has been admitted into Canada. W. J. Egan, deputy minister of immigration, stated that the minister's discretionary power, under the new "contract labor" order-in-council, had been exercised.

Admission of the "immigrants," who were en route to Alberta to investigate oil areas, was approved after receipt of a communication by the Department of Immigration. By the order-in-council which took effect August 7, entry into Canada of contract labor is forbidden, unless approved by the minister of immigration.

The order-in-council must be distinguished from the Alien Labor Act under which entry of complaint by some person or organization was a prerequisite to prosecution. Onus of preventing the admission of contract labor, under the order-in-council, now rests upon the Department of Immigration.

### Proves Northern Air Route Is Reliable

Monoplane Makes Non-Stop Flight Over Klondike Trail To Dawson

Dawson, Y.T.—Completing a non-stop flight of 860 miles from Aklayik, at the mouth of the MacKenzie River delta in the Arctic, the western Canada Airways Fokker monoplane, equipped with pontoons, arrived here covering the distance in six hours and 45 minutes.

The machine, piloted by S. W. L. Britnell, had as passengers, O. S. Finnie, director of the northwest territories and Yukon, his secretary, G. D. Murphy, L. A. Giroux, legal adviser and mechanic W. S. Trill.

The flight was instituted by the Dominion Government for purpose of testing the reliability of the air route and as part of its scheme to open up air communications with the remote sections of Canada.

The route followed was via McDougall Pass, made famous during the first Klondike gold rush, down the Porcupine and Yukon Rivers to Dawson.

### Sleeping Sickness In Japan

Tokyo.—Widespread sleeping sickness with a high mortality rate was reported from the southwestern prefectures. There were known to be 202 cases with 73 deaths from the disease, which was believed to be the result of the severe summer. Okayama was the hardest hit with 113 cases and ten deaths.

### France Has Excellent Crops

Paris.—France shows a promise of prosperous days. Her wheat crop, estimated at nearly 40 million bushels in excess of her normal consumption, is one of the largest she has ever known. The yield from the vineyard is reported good as is that from the beet and potato crops.

## JOHN W. DAFOE CHOSEN BY U.S. FOR PEACE POST

Ottawa. John W. Dafoe, of Winnipeg, editor of the Manitoba Free Press, has been chosen by the United States Government to serve as non-national commissioner on the part of the republic on the international commission appointed under the treaty for the advancement of peace between the United States and Germany.

The treaty, which sets forth that all disputes, after ordinary diplomatic proceedings have failed, shall be referred to the international commission for investigation and report, was signed at Washington on May 5, 1928.

The appointment of Mr. Dafoe marks the second occasion on which a Canadian has been signally honored by the United States Government through selection for service on a commission acting for that Republic.

Senator Raoul Dandurand last year was chosen on a similar commission for the advancement of peace between Brazil and the United States.

Mr. Dafoe was approached by Hon. William Phillips, United States minister at Ottawa, through Dr. O. D. Skelton, Canadian under-secretary for external affairs. It was announced that Mr. Dafoe had informed Mr. Phillips he is deeply conscious of the honor which the President of the United States has conferred and recognizing the responsibility involved has much pleasure in accepting the designation in question.

The International Commission being set up by the United States and Germany, is to have five members, of whom Mr. Dafoe is the first named. Each government is to make a national commissioner as well as a commissioner from a third country and then a fifth commissioner is to be named by common consent of the two governments from some third country.

### May Not Have Rights

Prince May Not Benefit From Reported Oil Discovery On Ranch

Ottawa.—If the reported discovery of oil on the Prince of Wales' Alberta ranch "E.P." is substantiated he may or may not benefit from the "find" depending upon the action he has taken. In a recent interview his royal highness referred to the discovery of oil in the neighborhood, suggested he could not profit since the petroleum and natural gas rights and the mineral rights of the property were vested in the crown.

The mines branch of the Department of the Interior say, however, if such is the case the Prince may, by application to the Dominion lands agent in the district, secure a lease on the petroleum and natural rights on his land.

The title of the "E.P." ranch is an old one, and it is also possible that when he purchased the title he may also have acquired the mineral and petroleum rights. In that event he may benefit from the discovery of oil simply by continuing to pay the yearly rental charge.

### Western Creameries Win

Honor Of Exhibiting Highest Grades Of Butter At Canadian National Exhibition Goes To Manitoba

Toronto.—Western Canada, represented by creameries in Manitoba, won the honor of exhibiting the highest grades of butter at the Canadian National Exhibition. Judging of butter and cheese, principal items in an industry yielding in excess of \$100,000,000 annually in Ontario alone, concluded recently.

George H. Barr, dairy commissioner for Ontario, said he had no excuses to offer for the failure of Ontario entries to outpoint those from the west. He was prepared to take off his hat to the westerners for the quality of their work.

The silver cup for the highest scoring creamery butter was awarded to J. G. Gallagher, Winnipeg.

The estimated population of China in 1923 was 230,000,000.

Editor and Publisher**FICTITIOUS REPORTS  
BY THE HERALD  
AND ALBERTAN**

In the two Calgary papers, the Herald and The Albertan, an article was published to the effect that the average yield in this district was from 3 to 7 bushels to the acre for summer-fallow and that there was no stubble crop at all. Just where these contemporaries received this report is not known, but surely one of sane mind would not give a report like that to be published in a newspaper. In reality the crops are much better and the report, to be more correct at the time should have read "from eight to 22 bushels on summer-fallow and from 3 to 8 bushels on stubble and the average crop with stubble and summer-fallow combined, taking in all the acreage sown in wheat, is about nine or ten bushels."

These daily papers should have more reliable correspondents and know them to be as such before they publish such absurd items, and correspondents writing for papers should either know of the subject they are writing about or not mention it at all. The effect of this item on the Carbon district may not be noticeable and again, many may take this report to be a fact and in future look upon

the district as an undesirable place to settle and which to do business in, especially when they find that land sells anywhere from \$60 an acre up. When one takes into consideration that nearly every family in central and southern Alberta takes one Calgary daily or the other, this report may have caused considerable damage to the Carbon district.

**FRIENDSHIP**

Much has been written and sung about the beauty of friendship. Friendship contains an element of self-forgetful devotion that loves without any craving for a return of that love. Thus it is not founded on self-interest or personal gain, but on a recognition of the qualities of good expressed by men. To recognize a spiritual individuality, to love it and be true to it, whatever outward appearances may suggest, to look through the mist of human failings and appreciate the true selfhood of another, is friendship in its highest and best sense. Because true friendship contains little or no thought of self, it has been the motive power behind a great many self-sacrificing deeds in the history of mankind.

As the Bible contains a record of some of the depest spiritual experiences of the human race, we naturally turn to see if there are any notable accounts of friendship recorded there; and among others, we may read of the friendship of David and Jonathan. When David, after his victory over Goliath, stood before the king, the young prince Jonathan, too noble to entertain any thought of envy at another's achievements, recognized David's nobility and loved him. As the familiar words read, "The soul of Jonathan was knit with the soul of David, and Jonathan loved him as his own soul." We also read in the Old Testament of Ruth's friendship for her mother-in-law, whom she accompanied to an alien land; and this has long been considered one of the loveliest ideals of unselfish devotion. The very name, Ruth, means in the Hebrew "a friend;" and through her act of disinterested friendship, Ruth became one of the ancestral line of Christ Jesus, the friend of friends.

No one need be without friends, if willing to be a friend, if willing to love unselfishly without thought of gain.

Farmer: See here, boy, what are you doing up there?

Boy: One of the pears fell off the tree and I'm trying to put it back.

**BELIEVES IN VALUE OF  
THE HOME TOWN WEEKLY**

The advertising value of the columns of the weekly press have long since been admitted to be greater than that of any other medium and more and more big national advertisers are coming to use the columns of the smaller local papers. The special appeal which the home town paper makes to the people it circulates among makes its advertising columns of a greater value than the city daily, where there are so many columns of advertising and news that they detract the reader's attention.

In this connection R. S. McLaughlin, president of the General Motors Corporation, in a recent letter states:

"I believe in the country weekly. I believe that no printed matter in Canada is more thoroughly read, or has more influence than the pages of the home town papers."

Susie—He put his arm around me five times last night.

Rosie—Some arm.

**The  
Pyramids  
of the Prairies**

The Pyramids of Egypt were built for the glory of ruling dynasties by toiling myriads of slaves and with wealth wrung from needy tax-paying citizens. Generation after generation of desperate toil with primitive tools built these gigantic monuments, the pride of a ruling class.

The Wheat Pool farmers of Western Canada are building an infinitely more serviceable monument—a great system of elevators owned by themselves and operated for their protection and benefit. By means of an annual contribution of two cents for each bushel of wheat the Pool Members of Alberta have provided over six million dollars for the construction of their elevator utilities. Bound together by the ties of co-operation, these Pool farmers are working out a plan for their own economic freedom.

The clear-sighted, far-seeing Pool member is extremely loyal to his own elevator system, realizing its value. Not only are Pool elevators operated for the Pool membership at bare cost, but they provide a strong shield to guard the welfare of the producer.

**Patronize Pool Elevators**

**THE TRULY LOYAL WHEAT POOL MEMBER WILL DO  
ALL IN HIS POWER TO DELIVER HIS WHEAT TO A POOL  
ELEVATOR OR CONSIGN IT TO A POOL TERMINAL.**

NOTE—2 cents a bushel farm storage will be paid on all  
Alberta Pool wheat delivered after December 2, 1929.

**Banff Festival Artists**

Herbert Hewetson

Stanley Hoban

Mary Frances James

These artists will appear at the Banff Scottish Music Festival to be held at the Banff Springs Hotel, August 30 to September 2, sponsored by the Canadian Pacific Railway. Mary Frances James, soprano, will take a leading role in the ballad opera by Dr. Healey Willan woven around the story of Bonnie Prince Charlie and Flora MacDonald. Stanley Hoban, Winnipeg baritone and Herbert Hewetson, tenor, will be among the assisting artists.

In addition to the Music Festival there will be the Highland Gather-

ing of pipers from most of the Canadian Scottish regiments who compete for the E. W. Beatty Trophy, the winner of which represents the outstanding piper of the year in Canada. Further, there are Highland Games staged such as tossing the caber and all the other sports which feature the great annual meet in Scotland. The Festival is in short a getting together of the Scottish race from all over Canada and is patronized by visitors from all parts of the North American continent.

**"Worth making a noise about"**

**DON'T SPEND YOUR  
MONEY OUT OF TOWN!**

It looks like a hard year for everyone and the people of Carbon and district would be well advised to spend their cash here this year instead of sending it to the mail order houses. If you do this the whole district will prosper and the merchants will not be unwilling to extend some credit in the spring to their cash customers. On the other hand, if you send your cash to the mail order houses and in the spring when you need the credit, you will have only yourself to blame if the merchant refuses. His credit will be limited this season and he will direct it where it will bring cash returns.

### THE ILLUSION ABOUT RED HAIR

Instead of being fighters, red-haired people, according to recent statements of some scientists, are the victims of congenial inferiority complex. Although such a statement may start lots of red-headed population into fighting, we are told, they ought to "stop, look and listen" to discover whether or not these new scientific pronouncements can be proved or disproved. For long enough, observes the Manchester Guardian, there has been a popular belief that red hair is the sign of an ardent character, and that the head that bears it, displays at once the native hue of resolution. But, this newspaper adds, we are now asked to group this belief under the heading of popular fallacies, because a lecturer to the British Social Hygiene Council at Cambridge assured his audience that the real truth of the matter is that red hair leads to an "attitude of permanent self-defense," and the Guardian continues:

"So far from being the daring adventurers, born with ginger so hot in the mouth that it needs emerge at the top of the head, the red-headed league are all victims of our old and even too-familiar friend, the inferiority complex. They were so teased about their coloring at school that they have been standing fiercely on the offensive-defensive ever since. It is an interesting theory; presumably, if they had only been left alone at school, William Rufus and Queen Elizabeth would have been two of the mildest monarchs that ever ascended the British throne, and the name Barbaossa, or 'Red-beard,' would have been given up to a whole family of Mediterranean corsairs.

"If they had never been bothered as little boys, the whole of the Barbaossa family might have lived in peace and amity with their neighbors instead of having such Christians as they could reach for most of the sixteenth century. There seems to be a very serious and important moral attached to possibilities of this sort—how much history has been mis-made during the school days by ill-judged jests that have permanently lighted the torch of rebellion in lives that were otherwise peaceful and sedentary? Still, one would have thought by this time there was less inflammatory material being bandied about our schoolrooms—if only because red hair, at least in the adult world, is eagerly admired in women and regarded as no drawback to a man. But it may be that theories make slower progress with the young and that in the matter of simple and ancient prejudices, the schoolroom is your true home of lost causes."

## SUNDAY SCHOOL LESSON

SEPTEMBER 8

### NEHEMIAH REBUILDING THE WALL OF JERUSALEM

Golden Text: "The people had a mind to work."—Nehemiah 4:6.  
Lesson: Nehemiah 2:1 to 7:4.  
Devotional Reading: Psalm 85:1-7.

#### Explanations and Comments

Withstanding Ridicule, verses 1-6. "What are these feeble Jews up to?" mockingly questioned Sanballat before his brethren and the army of Samaria. "Do they think they can do it all in a day? Do they expect to bring the stones to life out of these heaps of rubbish?"

"In every community there are crowds of people who have gone to the wall. They feel crushed and beaten. Now, the Church's mission is to do for this ruined mass what Nehemiah did for the rubbish-heaps of Jerusalem—to build out of them the city of God. The rubbish-heap is God's raw material. A revival is His finished product. Let the Church get to work. She alone is equipped for so divine a duty. She knows how to transform this mass of rubbish into a field of roses."—F. W. Boreham.

Then Tobiah joined in the ridicule. "That stone wall which they are building," he said, "will be broken down if a fox tries to scale it." Their words were repeated to Nehemiah, and he appealed to God to judge them. "Ridicule that comes out of the real humor of the situation may be hard to bear, but the man ridiculed often finds his labors lightened if he can himself see the humorous side. The ridicule of Sanballat and Tobiah, however, came from fear and a realization of the power of Nehemiah. Nehemiah kept steadily at his work in face of ridicule. The trouble with righteous indignation is that many times the man who is righteously indignant has to stop his work to vent his feeling. The resentment of Nehemiah against the enemies of the Lord only made him more determined to finish the wall."

"The people had a mind to work," Nehemiah said, giving them the credit for the work as he records the completion of half the height of the wall. It is thought that the most ancient walls had a height of two hundred feet."

"He who is severed from a cause he knows is right, through fear or ridicule, taunts, sneers or sarcasm or those around him, is not a man self-directed by right. He is only a weak prophet pulled by the strings of manipulation in the hands of others."—William George Jordan.

Despite all opposition from enemies, and all fears and weaknesses of workers, the wall was completed in the short space of fifty-two days. With great rejoicing a solemn dedication was held.

#### RECIPE FOR SWEET DESSERT

For those who like a sweet dessert at the end of the meal, this recipe will have a particular appeal.

#### Butterscotch Pie

- 1 cup brown sugar.
- 2 tablespoons butter.
- 2 tablespoons flour.
- 2 egg yolks.
- 1/4 teaspoonful salt.
- 1 teaspoon vanilla.
- 1 Cup Borden's St. Charles Milk.
- 1/2 cup water.
- 2 egg whites, beaten stiff.
- 4 tablespoons granulated sugar.
- Baked pastry shell.

Beat together the brown sugar, butter, flour, egg yolks and salt. Add the milk diluted with the water and cook in a double boiler until thick. Add the vanilla, cool slightly, and pour into the pastry shell. Cover with a meringue made with the egg whites and the granulated sugar. Brown lightly in a very low oven.

### The Newest Skyscraper

New York Building Almost Equals Height Of a Mountain

It is extraordinary to reflect, writes "Looker On" in the London Daily Chronicle, that the new building to be erected for a bank in Wall Street, New York, will be only 160 feet short of the height of a mountain! With its 63 storeys and its total height of 840 feet, this lofty erection should be one of the sights of the world. Britain's most elevated spire, that of Salisbury Cathedral (merely 400 feet) quite pales into insignificance thereby, and the distance from the ground to the cross of St. Paul's would have to be added to the height of Egypt's Great Pyramid before it equalled that of the New York giant.

The most expensive animal to keep in activity is the walrus. Its food bill is \$2,000 a year—a sum which would supply three elephants with food during the same period.

### A Youthful Steward

Fifteen-Year-Old Boy Is Serving On Graf Zeppelin

The youngest member of the Graf Zeppelin crew contemplates the world through serious eyes and believes he may grow up to be a good "airshipman," if he studies hard. His name is Ernst Fischbach, 15, and he shipped aboard the dirigible April 10 as a steward.

"I always wanted to be a steward," he said, "but now I may become an airshipman if I study."

Ernst was aboard the Graf Zeppelin last spring when damaged motors compelled Dr. Eckener to turn back. He is small, with an unusually serious face for a youngster.

Some of the earliest clocks had no dials. Only the hourly strikings told the time.

### Old Settler Deported

Violated U.S. Immigration Laws Unknowingly Several Years Ago

John Donaldson Ross, Scottish dairy expert, who unwittingly violated the immigration law quota by moving into Willow Glen, Montana, from Canada several years ago, was deported back to Scotland, on the liner Adriatic, despite all the efforts of the Anaconda Copper Co., his employers, to keep him here.

With him went his wife, born in Scotland, but reared in Canada and his two small daughters, one born in Canada and the other in the United States.

They arrived at Ellis Island after a long trip across the country from Montana, aboard a special train filled with other deportees, many of them recruited from penitentiaries and asylums. Ross came from Scotland to Canada eight years ago. There he married, and one daughter was born to the couple before they crossed into Montana.

Somebody informed immigration authorities that Ross was living in the United States in violation of immigration laws, and he and his family were ordered deported. Ross was not even permitted to back to Canada.

### Historic Apartment

Has Been Preserved

Room In London Where Y.M.C.A. Was Founded 85 Years Ago

It is just a little more than 85 years ago since Sir George Williams, then a humble shop assistant, founded the Young Men's Christian Association. He held the first meeting in his bedroom, which is now above a big drapery shop in St. Paul's Churchyard. The room and his table are preserved intact, for when rebuilding was in progress, the structure was lifted bodily from a lower floor to its present position. Pilgrims from every part of the globe visit the historic apartment to pay homage to their founder. The association later engaged a room in a coffee house for half a crown a week.

Bartholdi's Statue of Liberty was presented to the United States at Paris, July 4, 1884.

Sea Scouts being taught some secrets of Navigation by Chief Officer Poole of the Cunard Liner "Antonia."

## WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 139 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

## The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, the singing waiter and song writer at Blackie Joe's New York night club, is discovered by Marcus, the famous Broadway revue producer. Molly, the ballad singer at Blackie's, who had treated Al disdainfully, makes up to him when she finds he is on the way to fame. They are married and Al, and John Perry, Al's best friend, become a famous revue performer. Meanwhile, Grace, the cigarette girl at Blackie's, who loved Al without his knowledge, is left behind. Molly and John Perry, Al's best friend become interested in each other, but hide their feelings. One night Molly tells Al she is going to have a baby. He is overjoyed, but she is angry and resentful, believing her career will be spoiled. Al comforts her, telling her she will love the baby when it arrives.

### CHAPTER XI.

The months passed; the time approached for Molly's baby to be born. During that period she was kinder to Al, and more solicitous of his welfare. And, somehow, she and Al did not see John Perry so much. Perry seemed to be called out of the city a great deal of the time on business.

Al went about his work in a daze of happiness. At home was his lovely Molly, quiet-eyed, soft-spoken, patiently waiting. Undoubtedly the mystery of the approaching event had changed her for the better and, as Al predicted, she too wanted the baby.

Then the night came when she was rushed off to the hospital, and Al paced the white corridors, sat down in the reception room, tried to read the dog-eared magazines he saw lying about, smoked countless cigarettes and—waited for the good word. Occasionally a white-robed nurse passed, giving him a sympathetic glance. Then the moment came when one of these nurses beckoned to him. He sprang forward.

"You may come now, Mr. Stone. The baby's born."

"How is it, what is it?"  
"It's splendid—it's a boy."  
"And how's Molly?"  
"She's splendid, too."

Al tiptoed softly into the white room, behind the nurse. There was Molly, bolstered up slightly by pillows, paler than he had ever seen her before. She gave him a wan smile. And lying beside her was a small bundle, which suddenly gave off a high, piercing yell. Al stepped over, ever so cautiously, until he stood beside the bundle. Then he looked down into the wrinkled, red little face.

"Isn't he beautiful! He's a boy!"  
While the nurse quickly slipped her hand over her mouth to hide a broad smile, Al leaned over Molly and kissed her gently. He felt one of her arms go weakly about his neck. "Are you happy?" she whispered. "Oh, so happy! You're both of you just wonderful!"

"Yes? I—I'm happy too," murmured Molly, and suddenly she began to cry. Al was astonished, but he patted her lovely golden hair, and repeated, "There, there," and dried her eyes for her.

In after years Al looked back on that night as the time when he and Molly were closest together; when she seemed to create a rare and delicate intimacy between them. But as the days passed she grew fretful and impatient to be back at her work. She questioned Al constantly as to whether he was sure Marcus would welcome her back in the show, and as to whether the crowds would remember her as their favorite ballad singer. Each time the subject came Al ardently reiterated that she had nothing to fear. Why, wasn't she the best little heart-throb singer in the whole world? Surest thing she was!

Molly was enraptured with the baby at first, but as the time approached for her reappearance on the stage her interest in Junior seemed to diminish. Her old feeling of cold, calculating ambition returned to her.

Then came the night when she was to face the footlights again. Al, standing in the wings, saw her advance within the semi-circle of bright lights, raise her hands and clasp them across her heart in a characteristic way, and smile her usual friendly little stage smile. When she broke into song Al was singing with her from the wings, and the faintest hint of his encouraging murmur reached her.

Then his thoughts turned to Junior at home, Junior sleeping calmly in his crib, with one podgy fist thrust against his mouth. Suppose, thought Al, Junior were to cry and the nurse didn't know what to do for him. It was all Al could do to keep from dashing from the theatre and driving home post haste.

But no, if he did that Molly would say he thought more of the baby than he did of her. She was saying that too frequently already. Al adored his child as he had never loved another human being, not even Molly. He would sit with the baby in his arms, crooning to it, singing to it, talking to it, by the hour.

Molly noticed his constant devotion to Junior, and, while she had liked it and felt flattered by it at first, she grew more critical as time went on.

"Al, you don't pay any attention to me since the baby came."

"Oh, I do so."

"No, you don't."

"But Molly, he's our baby. Any attention he gets is for you, too. Don't you see?"

Molly didn't see. She shook her head vigorously.

But Junior grew more roly-poly and healthy without being the least bit aware that he was causing a slight feeling of dissension between his parents. He had Al's happy-go-lucky, fun-loving nature and his greatest joy, as time went on, was to have his father sing to him. So two years passed and Junior was able to strut about the apartment, although a bit unsteadily at times, and to go for the shortest of walks in the park. Meanwhile, the fame and fortunes of Junior's father and mother grew to far greater proportions than they had assumed before his arrival. Al Stone had become Broadway's premier song writer, and as his fame increased he insisted that Molly

keep pace with it. She sang all

his songs and he insisted that her photograph appear on every one of the music sheet covers and that her name appear in type twice as large as his own name.

Yet a close observer would have seen that Molly wasn't happy. She had fame, money, a happy home, an adoring husband and a beautiful child, yet something seemed to be missing. Frequently she was moody at home and sharp with Al. But Al loved her so and was so happy with Junior that he passed over these temperamental outbursts.

John Perry had called more frequently after Molly's recovery and return to the stage. He often dropped in at the sumptuously furnished Stone apartment and every so often he took Molly to dinner when Al was busy with a song that had to be finished in a hurry.

At Blackie Joe's place, just off the Village, Grace Farrell heard news of Al and Molly as it percolated down from Broadway. When she learned of Al's baby there was a little sharp pain in her heart for a moment, then she smiled radiantly and dashed out to send him a congratulatory telegram. So Al and Molly had a baby! Grace wondered what it was like and longed to see it.

One day Grace was walking on the Avenue, window-shopping and dreaming, when she saw Molly's face at the window of a blue Rolls-Royce. Just then the Avenue lights went red and the car drew up at the corner to wait for the cross-town traffic.

Now Grace saw a man sitting beside Molly—a stranger. Grace stopped, fascinated by the sight of the richly dressed Molly, superb in delicately applied make-up and a chic little Paris hat. Without thinking, Grace looked down at her own clothes. They were not shabby, but they looked poor beside Molly's gorgeous raiment.

Then a strange thing happened. As the driver of the Rolls-Royce prepared to start his car with the change of lights, Grace distinctly saw the dark handsome man beside Molly slip his arm casually and possessively about her. As Molly turned to him with a smile the car darted away, while Grace stood rooted to the spot in amazement.

(To Be Continued.)

### Ancient Tree Destroyed

Five-Hundred-Year-Old Elm In England Prey To Fire

An elm tree 500 years old, at Hadley Wood, Barnet, under which Bishop Latimer preached in 1535, has been destroyed by fire. The blaze started among dead leaves in a cavity in the trunk. The tree, which was of enormous girth, was said to have been one of the largest elms in the country. Henry VIII, when on his way from Hatfield House to London, heard Bishop Latimer preaching under it.

**Internally and Externally It Is Good.**—The crowning property of Dr. Thomas' Eclectric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

### A Notable Record

In 1882, Arthur Hawkes tells in an article in the Winnipeg Free Press, Brandon had seven lawyers. Four, Clifford Sifton, Arthur Sifton, Thomas Mayne Daly, and George R. Coldwell became Cabinet Ministers, and two, W. A. Macdonald, and A. Henderson, judges in British Columbia. That record can hardly be beaten in Canada.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

Sir William Morris, Great Britain's leading automobile manufacturer, told the press that every foreign car imported to the British Isles means the loss of a year's work for one Englishman.

### Britain's Atlantic Fleet

Finest Naval Unit In Existence and Largest In World

The Atlantic fleet becomes the greatest single fighting force in the world by the decision of the admiralty to recall five battleships of the Queen Elizabeth class from Mediterranean waters to home ports and the Atlantic fleet.

The transference of the battleships, not only an important change in distribution of the navy, but an entirely new departure in British naval policy, means the balance of power is removed from Malta and Gibraltar to the Atlantic.

The Atlantic fleet will consist of 14 capital ships, among them the two most powerful vessels in the world, the Rodney and Nelson, and the largest battle cruiser in the world, H.M.S. Hood.

The Queen Elizabeth vessels are approximately 30,000 tons, armed with eight 15-inch guns. These five will join the two Nelson class vessels, the Hood, the four Iron Duke battleships, and the battle cruisers Renown and Repulse, to make the most formidable fleet assembled on peace time duty in the world.

Officially the lack of adequate harbor accommodation is the reason for removal of the battleships. But there is more behind the decision than a mere question of detail. One suggestion is that the Admiralty is influenced by the fact that these big ships will now give the British dockyards a great deal of maintenance work to compensate for the loss by reduction of the replacement program.

The British fleet in the Mediterranean will be cut to five capital ships and four of the newest "Washington" 10,000-ton cruisers.

### Little Helps For This Week

"And the Lord shall help them, and deliver them, because they trust in Him."—Psalm xxxvii. 40.

Be bounteous in thy faith, for not misspent

Is confidence unto the Father lent; Thy need is sown and rooted for His rain.

His thoughts are as thine own; nor are His ways Other than thine, but by their loftier sense

Of beauty infinite and love intense. Work on. One day, beyond all thought of praise, A sunny joy will crown thee with its rays;

Nor other than thy need and recompense.—George Macdonald.

Have faith in God, think noble things of God; be sure that trust in the righteous God means the ultimate triumph of good over evil.

—Frederic W. Farrar.

### Stop Colds with Minard's Liniment.

### Owens Property In New York

Valuable Real Estate Is Held By King George

Among the owners of valuable real estate in New York is King George V. of England, it is revealed by the Associated Press. Several Fifth Avenue sites and plots of land elsewhere in Manhattan Island are held by the British crown.

Among them is reputed to be the site on the avenue, of the shoe store which has "the largest round window in the world"—a cylindrical sheet of glass completely encircling a showcase floor which is lowered like an elevator to the basement to be trimmed and then lifted again hydraulically into place.

All the properties of the British monarch are in the custody of a holding and management corporation downtown. It frequently adds to or disposes of this or that other realty under its care, but never makes public the owner's name, and thus keeps secret the exact locations here of the holdings of its royal client.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

### Can Be Relied On

The same engines and boilers which British engineers installed in the "Mauretania" in 1907, drove the ship across the Atlantic on her record trip recently. The British workman is always reliable and thorough.

Kill that corn with Minard's Liniment.

## Chew and Grow Thin

You know that certain foods furnish body energy without adding uncomfortable fat.

Sugar is one of these foods, supplying needed energy in concentrated form.

WRIGLEY'S gives you sugar and flavor. These ingredients dissolve in your mouth.

What pleasanter way of taking sugar?

### Big Job Ahead

One Man Starts Work On Millions Of Books In British Museum

One lone man is working on the job of renovating the 20,000,000 books in the British Museum, in London. For the past fourteen years he has been rehabilitating the dusty volumes in this world famous museum, and there are only 19,790,000 more to fix. If his present rate of progress continues, he will complete the task in just 1,329 more years—unless somebody publishes another book in the meantime.

### SAVE THE CHILDREN

In Summer When Childhood Ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### A Creditable Record

A Sussex lady who recently celebrated her hundredth birthday received a medal from the British Red Cross Society for her War services which included sewing over 400 shirts for the men at the front.

### From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."—Mrs. Milton McMullen, Vanessa, Ontario.

## WORLD'S FAMOUS THREE FUEL HART PARR

In special tests conducted by nationally known engineers who used cheap distillate fuel the great Hart Parr 18-36 registered a draw bar pull of 5,525 pounds at 2 miles per hour and 4,075 pounds at 3 miles per hour. On the belt it easily pulled the amazing load of 43 horse power. The Hart Parr is a three fuel tractor and will burn gasoline, kerosene or distillate equally well. It is the one tractor that develops its power from the cheapest low grade fuel. Hart Parris are made for small, medium or large farms and have three forward speeds to speed up hauling and field work. Drive yourself and experience the thrill of controlling tremendous power.

## TAGGING MACKEREL

The story of the mackerel recently captured off the Atlantic Coast with a rubber band encircling its body, has been received either as a joke on the mackerel or the public, and the mystery becomes the more pronounced by the further report that for a number of years past an occasional mackerel has been captured gartered with a rubber band.

Some of the theories advanced have been ingeniously humorous. The true explanation may be found in connection with the experiments by the "North American Commission on Fisheries Investigations," which has been carried on in Canadian and American waters to ascertain, if possible, the movements or migrations of mackerel.

Beginning about 1925 it was arranged that a number of these fish be secured each year from the mackerel traps along the coast, and a numbered metal tag, attached to a celluloid band, fastened to the tail of each fish and the fish liberated. In addition to the number each tag bore the name "Canada" or "U.S." to more clearly identify the location of the waters and country of origin where the fish were captured and liberated. Publicity was given to experiments, the fishermen being advised in the recapture of such tagged fish to forward the tag with date and place of capture to the proper officials in charge.

In June, 1925, over 600 mackerel were secured from a trap-net at Cranberry Head, Yarmouth County, N.S., and duly tagged and liberated. The experiment was continued each succeeding year at Cranberry Head and other points along the Nova Scotia coast, and also at the Magdalen Islands. Similar experiments were conducted by the United States Commission. A number of the tagged fish were recaptured at different points along the Canadian Coast and also in United States waters. For instance, last year mackerel bearing the Canada tag were captured off Block Island, Rhode Island and other Massachusetts waters.

It is quite probable that the rubber bands were placed on a number of mackerel by persons doing the tagging at one of the tagging points.

## GOLF

Golf is a form of work made expensive enough for a man to enjoy it. It is physical and mental exertion made attractive by the fact that you have to dress for it in a \$200,000 clubhouse.

Golf is what letter carrying, ditch digging and carpet beating would be if those three tasks had to be performed on the same hot afternoon in short pants and colored socks by gouty-looking gentlemen who require a different implement for every mood.

Golf is the simplest looking in the world when you decide to take it up, and the toughest after you have been at it ten or twelve years.

It is probably the only known game a man can play as long as a quarter of a century and then discover it was too deep for him in the first place.

The game is played on carefully selected grass with little white balls and as many clubs as the player can afford. These little balls cost from 75c to \$25 and it is possible to support a family of ten adults for five months on the money represented by the balls lost by some golfers in a single afternoon.

A golf course has eighteen holes, seventeen of which are unnecessary and put in to make the game harder. A "hole" is a tin cup in the centre of a "green." A "green" is a small parcel of grass costing \$1.98 a blade and usually located between a brook and a couple of apple trees of a lot of "unfinished excavation."

The idea is to get the golf ball into each of the eighteen cups in the fewest strokes and the greatest number of words.

The ball must not be thrown, pushed or carried. It must be propelled by a \$200 worth of curious looking implements especially designed to provoke the owner.

Each implement has a specific purpose and ultimately some golfers get to know what that purpose is. They are the exceptions. After each hole has been completed the golfer counts his strokes. Then he subtracts six and says, "Made that in five. That's one above par. Let's play for fifty cents next hole, too, Ed."

After the final, or eighteenth hole the golfer adds up his score and stops

when he has reached eighty-seven.

He then has a swim, a pint of gin, sings "Sweet Adeline" with six or eight other lars, and calls it the end of a perfect day.—Ex.

ANSWERS TO QUESTIONS  
ON CITIZENSHIP

Born?

Yes, sir.

Where?

Russia.

Why did you leave Russia?

Because I couldn't take it with me.

Where were your forefathers born?

I only had one father.

Your business?

Rotten.

Where is Washington?

He is dead.

Mr. Cohen, do you promise to support

the United States?

How can I with a wife and six kids.

What state are you in?

Trouble.

Now, Mr. Cohen, if the President and

vice-president died, who would take

charge?

The undertakers.

Who discovered America?

Columbus.

Where is he

in Ohio

Where was the Declaration of Inde-

pendence signed?

At the bottom.

Were you ever convicted of crime?

No, I have a good lawyer.

Do you know why the hand of the

statue of Liberty is eleven inches?

Yes, because if they had made it 12

inches it would have been a foot.

That is all Mr. Cohen.

When will I get my papers?

They will cost you \$5.00.

Oh, Oh, I knew there was a catch in  
it somewhere.

Waiter: Do you want Zoup?

Diner: Do I have to take Zoup?

Waiter: That's Zoup to you.

.....

Constable: Now tell the court what  
passed between you and wife during  
the quarrel.

Defendant: A flat iron, a rolling pin,

six pie plates, a kettle, a teapot and

six horseshoes for good luck.

Who Does Your  
Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.
